

Do you know JOE?

Joe Finger

Mr. Finger, the highly acclaimed golf course architect, is responsible for designing over 100 golf courses world-wide. His work here at Riverhill is a testament to his brilliance. Mr. Finger was a visionary who had the foresight to leave us with detailed notes on specific areas of the golf course to lengthen as technological changes to equipment could alter the integrity of his design. Look for the plaque dedicated to Mr. Finger the next time you tee it up at Riverhill.
